PROFILE

As a proactive and detail-oriented UI/UX Designer & Front-end Developer with over 8 years of extensive experience, I have successfully delivered a myriad of enjoyable web and mobile products from start to finish. My comprehensive understanding of various technologies facilitates seamless collaboration with developers throughout the entire design and development process.

I believe in design that solutions should always be simple and elegant.
Navigating using a logical approach.

WORK EXPERIENCE

Infoshare Systems Inc
UI/UX Designer –Frontend Developer   April 2023 to Till Date

I have worked on a complete redesign of Infoshare AWV product. Under AWV, including the mobile and web applications of all four portals, I contributed to team efforts with interaction design and frontend development.

Embed Tech Solutions Pvt Ltd
UI/UX Designer –Frontend Developer   Aug 2020 – April 2023

Participated in the design and development of projects. Created mockups and developed HTML responsive pages. Managed both product development and support for development tasks/teams simultaneously.

Dice Logic Solutions
UI Designer – Frontend Developer   June 2017 – July 2020

I created and implemented user interfaces. Developing web applications that utilize casinos, website banners, and promotional landing pages. Worked on front-end pages that were developed in a professional manner using HTML5, CSS3, Bootstrap, and JQuery

System Soft Technologies Pvt Ltd
Web Designer   June 2014 – May 2017

I created the website templates using Adobe Photoshop and then translated them into HTML. I also provide support to developers with CSS alignments.
